All Eyes On Orlando FUN Show
6,700 Lots Offered In Public Sale

Most of the dealer fraternity is en route to or already in Orlando for the 2014 Florida United Numismatists convention that officially begins on January 9. This show, now in its 59th year, is often considered a barometer or crystal ball into what lies ahead for the market. Many believe that if the massive Heritage auction is a success along with strong activity in both retail and wholesale on the bourse that the industry will see a banner year moving forward. A trio of potential multi-million dollar rarities highlights this year's sale including the 1927 $20 Saint-Gaudens in NGC MS66; the famous Hawaii Five-0 1913 Liberty Nickel NGC PR64 CAC and the 1787 Brasher Doubloon with EB on Wing, graded NGC MS63. A few of the many more amazing highlights are listed at right.

Auction Company	Price Realized*
Heritage	$236.5
Stack's Bowers/Teletrade	$105
Goldbergs	$21.1
Bonhams	$13.5
Legend-Morphy	$7.2
David Lawrence	$5.5
Scotsman	$2.8
Krueger & Krueger	$1.2

*In Millions

The Professional Numismatists Guild (PNG) estimated US rare coins as a $5 billion market in 2013 with nearly $393 million in coins sold at public auction over the past 12 months. This combined total of auction sales includes 11 coins that brought over $1 million each and was compiled from a year-end survey conducted by the PNG of auction houses (see breakdown above). We tallied results from online auction company Great Collections that took place in December of 2013. Five weekly sales from December 2 through December 30 totaled over $1.85 million. Looking at the wholesale market through the dealer-to-dealer electronic exchanges for the past year reveals over $15.5 million in total trades with $13.6 million of those transactions taking place sight-unseen. Compare this total of sight-unseen trades with $14.8 million for all of 2012 and just over $25 million recorded during 2011.

Classic Silver Commemoratives have yet to turn the corner and continue to trade at decreasing levels. On the brighter side, only a few issues felt the pinch in this report, including 1925-S California Diamond Jubilee, 1936 Robinson-Arkansas and Washington-Carver Type. Gold Commems continue to receive much more Bid support than their Silver counterparts. However, material here is still selling at public auction for a discount, sometimes for below sight-unseen money. A 1905 Lewis and Clark sold for $1,840 in PCGS MS64 at a recent sale, while buyers are blindly offering $1,900 for even the worst possible example.

Morgan Dollars are still in serious demand as market-makers push Bids higher in order to acquire much needed material. Increases are outpacing the market in many instances, occasionally catching sellers off guard. As of late, we are routinely alerting dealers that they are offering coins for sale at prices that are below what other dealers are paying sight-unseen. Much of this information can be identified in the Market columns published on the fourth week of each month. Gold Type is mixed with advances and declines as this segment seeks out direction. Gold Spot jumped over $23 an ounce to $1,225 in the first full day of trading in 2014. The first full day of trading in 2013 resulted in a $13 increase to settle at $1,687. A loss of $462 an ounce for the yellow metal, down some 27% in the past year is now on the ledger. Silver performed just as poorly; beginning the year at $30 an ounce in 2013 compared to a close of $20 an ounce today for a 33% drop. Today, Platinum closed at $1,405 and Palladium at $730 versus a year ago at $1,565 and $708 respectively.

Many east coast dealers will be heading to the Big Apple for the 42nd annual New York International Numismatic Convention, January 9-12. Stack's Bowers and Ponterio will be handling the auction at this show. Ira and Larry Goldberg will be holding an auction January 26 in Los Angeles. This sale consists of the Missouri Cabinet Collection of Half Cents. Next for the Goldbergs is their Pre-Long Beach auctions, one of which features US coins and currency, taking place January 26-27. The other, scheduled for January 28, contains ancient and world coins. Then the Long Beach Expo is coming January 30-February 1 with an auction by Heritage.

CAC Breaks New Milestone

In six short years, CAC has passed many milestones. As we celebrate our sixth birthday, CAC has smashed a new milestone - the evaluation of over 550,000 coins with a market value of over $2.4 billion.

CAC was established by leading members in the numismatic industry who recognized the need for a higher level of grading. CAC has revolutionized the market and continues to experience impressive growth.

CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. That's because CAC only awards the green sticker to coins that meets it's stringent standards. What's more, CAC provides liquidity to the market. Since its inception, CAC has purchased coins in excess of $340,000,000.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

Sight-Unseen Type Bids Erupt Philly Franklins Fly High

With so many dealers in Florida for the 59th annual FUN show, it's a bit unusual to see such high numbers on the dealer-to-dealer electronic trading networks. CCE boasts over $152K in sight-unseen trades for the last week. FUN has created a good deal of excitement to kick off the new year. With temperatures near 70 degrees, attendees at this bellwether numismatic gala are warming up in sunny Orlando, especially those from the North East who've been facing dangerously cold weather lately. Three especially hot coins are expected to garner over a million dollars each at the Heritage auction. That's not a bad number when one considers that it took all of 2013 for 11 coins to sell for $1 million or more.

Generic Morgan Dollars in MS65, both PCGS and NGC, have higher sight-unseen Bids of $135 and $132. An 1879-CC cartwheel graded MS65 by NGC sold for $24,250 through David Lawrence's online auction this past weekend. A PCGS example with the same date and grade sold in August of 2013 for $22,912 through a Stack's Bowers auction. Increased demand is seen for 1879-CC and 1879-CC Capped Die Dollars in MS63PL with dealers now paying $5,875 and $5,375 for PCGS and NGC examples.

Vintage Silver Commemoratives are still traveling down the same unwanted path they have been on for quite some time now. Another half dozen issues are reporting in with declines, many of which are fast approaching Bid levels found in the next lower grade. This market segment of classic Americana is in desperate need of a nationwide dealer promotion and or a revival of collector interest. Collector demand is also missing in regards to classic Gold Commems, with zero increases in place for either series. Although many of these issues have visible buyers present, they continue to sell through public auctions for levels that are upwards of 20% below sight-unseen Bid. A few examples include the 1921 Pilgrim in PCGS MS64 that realized $135 versus $173 Bid; a California Jubilee in PCGS MS63 brought $143 against $180 Bid and a Wisconsin in NGC MS65 sold for $154 with dealers paying $180.

Dealers are hot for Copper, Nickel and Silver Type in both Mint State and Proof and have raised Bid accordingly. Over 350 Bid jumps are in place representing live offers in hopes of bringing material to market. This is by far, the largest round of increases recorded within the Type segments in several months, if not years. Matte Proof Lincoln Cents are leading the charts with percentage increases as high as 38% over our last report for PR64 Red & Brown examples encapsulated by either service. Matte Proof Buffalo Nickels are also being targeted with a handful of increases in the 5% range. Proof Liberty Seated Half Dollars with Arrows moved higher by nearly $500 to $6K Bid for Gem PCGS examples. The last two Proof 1873 Halves in PCGS PR65 to sell through public auction brought $12,295 and $11,750 which took place in August and July 2013 respectively. On the Mint State side, Reeded Edge Capped Bust Half Dollars lead the winner list with a $1,200 sight-unseen Bid increase for any example with a grade of MS64. This 40% Bid increase to $4,200 is good for either PCGS or NGC plastic, of which a combined 306 have been made in Very Choice. Standing Liberty Quarters are mixed with increases outnumbering declines by a margin of 4:1. Higher Bids are targeting both Full Head and Non Full Head examples in Uncirculated condition in grades through MS65.

Better Franklin Half Dollars are still sought-after in MS67 with the Full Bell Line designation. No less than five Philly minted examples are up, with four-figure sight-unseen Bids increasing by as much as $2,400 for the 1951. See a list of Philadelphia issues below and their PCGS/NGC combined pops in MS67FBL along with the number that CAC has approved. To date, not a single Philadelphia minted 1953, nor 1960-1963 have been encapsulated at the MS67FBL grade level.

Sight-unseen activity for Mercury Dimes is looking positive for Full-Band later dates in brilliant MS67 condition as steady demand pushes Bid up to a solid $125. A beautifully toned MS66FB+ 1927-S with CAC approval will head to the auction block during Goldberg's Pre-Long Beach sale at the end of this month and could whet the appetites of many a collector for this segment.

Walkers are enjoying an up-tick in Bid for both NGC and PCGS Halves as collectors look to put together short-sets in the lower Mint State grades. Mild discounting is sparse with only a scant number of PCGS examples in MS64-66 showing a decrease, the largest of which is only a $15 drop, belonging to 1934-S issues in Very Choice. This is a welcome sign after a lukewarm start to the year last week.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity, including [illegible] reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks [illegible] near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PCGS+ Peace Dollars Perform
Classic Commems Still Suffering

Many dealers have returned triumphantly from Orlando after a great show and auction which hammered over $73 million in the collector-rich state of Florida. Success at this event, which ran January 9-12, is especially important as it is believed by market participants to set the tone for the numismatic year ahead. With a huge auction total, as well as strong wholesale and retail activity on the bourse, the bar has been set very high indeed. The FUN show also included an eight hour seminar for law enforcement officers which provided accredited instruction on numismatic crime investigations for 42 detectives. All attendees at this class, given by the Numismatic Crime Information Center, were provided an opportunity to walk the bourse floor and speak with dealers, asking questions and gaining some hands-on experience. Several additional initiatives are planned this year to help educate law enforcement in numismatic crimes.

When all the dust from FUN settles, it'll be time for yet more action. Ira and Larry Goldberg will be holding auctions later this month. One of which, the Missouri Cabinet Collection of US Half Cents, is scheduled for January 26. Also, two Pre-Long Beach auctions are slated for the 26th through the 28th. These sales include the Del Valle collection of US Gold coins; the Dr. Phillip Ralls collection of Large Cents; several Old-Time estates of US Type and Gold; and the million dollar Rosen family collection of modern Israeli coins. The Goldbergs will also be selling a super hoard of 216 1856 Upright 5 Gold Dollars in two lots. An NGC MS66 CAC is the finest known example and is being sold as one lot, while 15 lots later, the remaining 215 examples will be auctioned as a single lot. The anonymous owner has been amassing these coins since 1996. See a list of additional highlights from the sale herein. Then it's time for the Long Beach Expo again, January 30-February 1, celebrating its 50th anniversary with free admission coupons available online to the public. In addition, keeping with the 50 year theme, PCGS certified Mint State and Proof 1964 Kennedy Half Dollars will be given away at the show through daily drawings.

PCGS announced a new holder at FUN and distributed samples there. These latest slabs have been primarily designed to combat counterfeiters through the use of a new high-tech 3D hologram produced by DuPont. They will also be more scratch resistant and therefore allow a clearer view of the coin within. PCGS will launch their new holders on Monday, January 27, the week of the Long Beach Expo. A special crossover service will be offered by PCGS at the show as well, from January 27 through February 1 with the submission fee being waived for those slabs that do not cross. Classes will be available from PCGS at the Expo which include Grading 102 with topics of discussion being Qualifiers, Proofs, Moderns and difficult-to-grade coins. Grading 103 will cover no-grades and counterfeit detection.

Competitive Bidding took place for several semi-key and key date Morgan Dollars at the FUN show auction with strong prices realized in many cases. A few examples include an 1886-O in PCGS MS65 with CAC approval selling for a whopping $152,750; an 1893-S graded NGC MS64 bringing in $217,375 and an NGC 1895 PR65 with CAC sticker taking in $102,815. 1888-S Dollars have fallen $200 short since our last report in PCGS MS65 to a sight-unseen Bid of $2,000. This is in response to the most recent sale at public auction where it realized $1,880. Major sight-unseen Bid jumps are in place for late date Peace Dollars graded MS64+ and MS65+ by PCGS. Leading the list of advancers is the 1927-S in MS64+ with a 36% increase to $1,500 Bid. Next is the 1926 in MS65+ which increased by $275 and the '34-D moving up by 24% in MS64+ from our last report.

Silver Commemoratives are most active in terms of price declines this week as Bid for 79 various issues and grades adjust downward. For the most part the downticks in price are not really significant in there loss of dollar value—it's just the quantity that's attention getting. There are some higher Bids occurring as well with dealers advancing prices for 1892 Columbian Expo Halves serviced by both PCGS and NGC in grades MS63 and MS64. 1934 Texas Centennials from both services in MS64 are also sought. Gold Commemoratives are mostly solid at current levels with only the Grant with Star Gold Dollar losing ground in MS67 to the tune of $125.

Walkers have quieted down somewhat in MS66 with some common dates retreating by a mere $2. However, PCGS slabbed 1942-S pieces in the next grade higher did take a noticeable 15% hit. Remarkably, this PCGS pop 4 Walker was still entertaining a sight-unseen Bid of $75,000 this time last year. Stickered and + graded Franklin Half Dollars are receiving increased attention, especially those with the Full Bell Line designation.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

CAC Leads the Charge as it Hurdles Another Milestone!

CAC has examined over 450,000 coins ($2.0 billion)

CAC continues to hurdle impressive milestones at a speedy pace. Founded over five years ago by leading members of the numismatic community, CAC has led the charge – setting forth stringent standards for quality within a grade.

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC stickers identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike can have confidence that a coin is solid for the grade – look for the CAC sticker.

Anxious For California Coin Climate New York Auctions Plentiful

Still basking in the glow of the successful FUN show earlier this month, many dealers are currently in Northern California attending the San Jose and other regional shows while others are preparing for the Long Beach Expo, scheduled for January 30 through February 1 in Southern California. These west coast locations will provide yet another good excuse for east coast residents to flee the harshly cold winter conditions there as they did on their trips to Orlando. A very positive conclusion to the bellwether show in Florida bodes well for Long Beach, celebrating their 50th anniversary this time around. PCGS will offer two classes at the Expo on Saturday, February 1: Grading 102, which will cover Qualifiers, Proofs, Moderns and Difficult-to-Grade material; and Grading 103, addressing No Grades and Counterfeit Detection.

With a PCGS pop of just 43 and only 15 finer, an 1884-S MS63 graded by PCGS and having CAC approval sold through the recent Heritage FUN auction for $49,940. Ira & Larry Goldberg's Pre-Long Beach auction includes a similar cartwheel graded MS63 by PCGS sans CAC sticker, and has already been Bid up to $70,000 — far exceeding the cataloger's estimated value of $50,000. CCDN blind Bids remain at $15K for either PCGS or NGC plastic. Generic Morgan Dollars are moving higher in MS65 for both PCGS and NGC now at $137 and $134 respectively. Very Choice examples are correcting a bit with NGC examples losing $4 per to $59 Bid while PCGS slabs lost half that amount, now at $61, with market-makers still accepting large quantities of each. NGC Morgan Dollars in Superb MS67 condition are seeing higher sight-unseen Bids, to the tune of $530 while PCGS product remains at $650. Peace Dollars are steady overall with only a single decline in place for the 1923 in PCGS MS63 now at $37. A key date 1934-S graded PCGS MS63 realized a nice chunk of change at a recent David Lawrence online auction, taking in $3,900, which is $300 more than the next grade's sight-unseen Bid. Auction results such as this and many others can be seen in this week's Market Columns which are published in the fourth issue of each month providing useful information, not available in any other publication.

Two Philadelphia minted Mercury Dimes with Fully Split Bands are oscillating with each other. MS65FB and MS66FB pieces from 1939 did a little backtracking, erasing their gains from November. NGC graded material was a bit more shaken up as decreases extended into the MS64FB grade column. However, 1938 Mercs in MS67FB are enjoying a nice round of Bid increases for both PCGS and NGC varieties with a 14% boost from last week. These 1938 Phillies, with a combined pop of 354 and only 25 finer have been on an upswing for the past several months and are up a staggering 82% from a year ago. Common date 1943-S Walkers are smiling in the lower Mint State grades edging up by a buck, continuing a steady rise since late December. On the other hand, late date NGC slabbed Halves in MS64 and MS66 are feeling a little shaky after a mild drop by the same amount brought on by some disappointing auction results. This uneasiness in these same higher Mint State grades has carried over into Franklin Proof Singles. Declining Bid prices are slowing for Silver Commemoratives. There are twenty issues decreasing this week versus last week's seventy-nine which are being driven lower by weak prices realized at auction and to some extent, discounted dealer Asking prices. This is identified in the Market Columns by an "a" and "w" representing an auction sale and the week's lowest ask level. A complete explanation of the Market Column symbols can be found at the top of Page 2a. The majority of these Bid declines in this report are occurring for those Commems encapsulated by NGC. It is not only negative news within this segment as a few better four-figure pieces traded sight-unseen through the dealer exchanges. These include a Lafayette Dollar in PCGS MS63 for $1,155; a 1939-D Arkansas for $5,000 in PCGS MS67 and a Spanish Trail in PCGS MS64 for $1,050.

Gold Spot jumped up $24 an ounce today, which is the largest single session move since October of last year, settling at $1,263. Silver came in at $19.98 and Platinum closed at $1,463. Trading is currently pretty moderate over the electronic dealer-to-dealer trading networks with sight-unseen transactions totaling $260,000 for the last week. Plenty of auction opportunities are upcoming, including one by Heritage which will take place in New York and runs February 3-5. This sale will feature a "Premier" session, and we have listed several of the many highlights herein. Stack's Bowers will hold their Americana Auction in New York as well, February 5-6. Great Collections is anticipating their first million dollar sale featuring the Dr. Spencer Patterson Collection which is scheduled to close Sunday, February 9. Legend-Morphy is up next offering up the Regency Auction VI on February 13 at the Venetian Hotel in Las Vegas in conjunction with the PCGS trade-n-grade event.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sellout sale sheets and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales reported prices in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: **"w"** – Lowest asking price during the week prior to publication (*w*eek old); **"m"** – Lowest asking price during the previous three weeks (*m*onth old); **"t"** – *T*rade during the most recent month; **lm** – Lowest asking price appearing *l*ast *m*onth; **"lt"** *T*rade appearing *l*ast month; **"ot"** *T*rade older than 2 months; a blank, for all Market prices older than two months; **"a"** for auction transactions; **"oa"** – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

CERTIFIED COIN DEALER newsletter

*CCDN—a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXIX No. 5 | January 31, 2014 | Single copy price $5.00

Better Morgans Showing Strength Pre-Long Beach Sales Total $27.6 Million

As the Long Beach Expo celebrates its 50th year, the Goldbergs toasted to their wildly successful auction of the Missouri Cabinet Collection of U.S. Half Cents January 26-28 in Los Angeles. With 100% of the 230 lots sold, the auction achieved a total of just over $18 million. Add in another $9.6 million from their traditional Pre-Long Beach sale and it becomes obvious that the overall market remains strong. Sight-unseen transactions through the dealer-to-dealer electronic trading networks were also strong over the last week with over $320K changing hands. The vast majority of this material trading blindly is of generic nature but a couple of standouts are worthy of mention. A with Motto Seated Dollar traded for $4,900 in PCGS PR64; an 1890-CC Morgan Dollar sold for $1,075 in NGC MS64 and a 1939-D Arkansas in PCGS MS67 was exchanged for $5,000. All traded sight-unseen, meaning returns are not an option. Precious metals are somewhat lackluster as Gold dropped $20 from yesterday to $1,242 per ounce, while Silver slipped 42¢ to settle at $19.11 and Platinum fell down well below $1,400 to $1,382. Platinum has not seen a level this low since late last year.

Increased demand for semi-key and key date Morgan Dollars is resulting in higher Bids for both PCGS and NGC slabs in numerous grades from MS61 to MS65. Cartwheels like the 1884-S in MS62 are $1,500 higher with a new sight-unseen Bid of $9,500 and $8,000 respectively. Better date, 1896-S Dollars jumped $1,000 in PCGS MS65, now at $10,000. This date is becoming more available as of late with some speculation that several original BU Rolls may have recently been discovered. Current combined pops are: MS61: 195; MS62: 526; MS63: 701; MS64: 629; and MS65: 70. Common date Gem Morgan Dollars in PCGS holders are needed at blind Bid of $145 which is up 6% since our last report and have not been nearly this high since December of 2011.

Dealers are now paying $1,300 for Gem 1925-D Mercury Dimes without Full Bands designated on the holder after being rather stagnant, maintaining a holding pattern ever since late last August. This week, both PCGS and NGC examples awaken with a $200 jump in sight-unseen Bid with the former of the two returning to a level not seen in over a decade and which is up 39% from this time last year. As for the latter issue, it has also enjoyed a staggering leap of 49%. On the flipside, a 1945-S Merc in PCGS MS67FB sold for a mere $247 during this week's public Pre-Long Beach sale, leaving more than $100 on the table, as sight-unseen buyers are still waiving $350 for any example, regardless of look.

Proof Walkers are somewhat mixed in this report, especially in PR65 as several dates, 1938, 1939, and 1941, contract somewhat. In the next grade up, NGC PR66 1939 Halves have risen back up to a sight-unseen Bid of $600 after a six week lull. Coming up in Heritage's New York auction next week is a beautifully toned 1925-S Buffalo graded PCGS MS65. This year and mint, although not the lowest ever produced, at over six million, is infamous for poor strikes and appropriately only 48 examples have received a Gem grade between both of the major grading services with only three finer. Collectors will surely vie to own this lustrous and rare find.

PCGS has just announced that they have certified the first confirmed 1974-D Aluminum Lincoln Cent as MS63. Heritage has the new discovery piece on exhibit at the Long Beach Expo, and will offer it for sale during the CSNS convention near Chicago, April 23-27. After an auction hiatus this go round, Heritage will resume as the named official auction house of the Long Beach Expo June 5-7. Along with Heritage's New York sale next week, Stack's Bowers will also hold an auction in the Big Apple, February 5-6. We have listed several of the many highlights herein.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks at or near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Heritage Nabs $11.5 Million In NYC Auction
Mild Correction For Common Silver Dollars

Heritage concluded their Signature Sale held in New York February 3-5. This auction traditionally would have taken place in conjunction with the February Long Beach Expo and is expected to return to Long Beach next year. A total of over $11.5 million in prices realized crossed the NYC auction block. The top lot was a 36.40-Ounce Gold Ingot that was recovered from the *S.S. Central America* shipwreck at the bottom of the ocean, realizing $176,250. A few of the many additional highlights from the Heritage sale are listed below. Trading through the dealer-to-dealer electronic wholesale networks was rather modest this past week with just over $70,000 in total sigh-unseen transactions recorded. A few stand outs changed hands in addition to the generic Morgan and Peace Dollars that usually trade week-in and week-out. Sales within the Mint State Type category included: Barber Dimes in MS62-MS64 at $120-$250; a Capped Bust Half in NGC MS64 at $2,600 and a PCGS MS64 Barber Half at $1,000. Bids hit within the Proof Type segment included a Shield Nickel in NGC PR65 at $490; Seated Half with Motto in NGC PR67 at $6,100 and NGC PR65 and PR67 Barber Halves at $2,600 and $4,900; and a PCGS PR63 Trade Dollar for $2,600.

Morgan Dollars graded by the four major grading services are showing strong results at recent public auctions. Two beautiful 1889-CC Morgan Dollars in ANACS slabs both graded MS61 did well at the past FUN Show taking home $12,925 and $17,625 through the Heritage sale. Common Date Morgan Dollars are slightly softer in MS64 and MS65 for PCGS and in NGC MS66, now Bid: $59, $141 and $240. Peace Dollars in PCGS and NGC plastic are experiencing a similar scenario in the MS64 grade, down a bit to $50 Bid. A nicely toned 1923-S PCGS in MS65, with a pop of 124 with 3 finer brought a whopping $4,055 at last week's Stack's Bowers online iAuction. This is almost double the sight-unseen Bid of $2,500 being offered for this coin in this grade. At least one dealer is advertising that he will pay big money to anyone who can supply these GSA Dollars in their original government plastic, box and included COA: 1889-CC, 1892-CC, and 1893-CC. Increased demand for semi-key date 1892-O has resulted in a 5% Bid jump to $200 for any MS63 example encapsulated by ANACS or ICG.

Activity within Mint State Copper, Nickel and Silver Type remains strong across-the-board with increased collector participation evident. A solid indicator of this is seen in the ANACS and ICG pages as sight-unseen Bids for Flying Eagle and Indian Head Cents, grading MS63-MS65 are pushed higher. Mint State Gold Type continues to be soft with many on the fence as to which direction Gold Spot is headed. Silver Commemoratives continue to settle into a lower trading range as dealers discount their Asking prices for select material, to new lesser levels. However, some sunshine does exist here as at least one dealer is looking for Gem Lafayette Dollars and Albany Halves in MS66. Unseen Bids have been nudged up to $4,650 and $375 respectively for examples from either PCGS or NGC. Gold Commems remain steady through the entire grade spectrum with visible buyers ready to pay current levels for most issues in several grades. Walking Liberty Halves dated 1946 are scaling back by up to 9% this week after three months with a sight-unseen Bid of $100. Other later dates are also falling a bit including 1940-S, 1944 and 1944-D. For 1944 Walkers, there is also a bright spot as ANACS and ICG slabs advance in Gem. Proof Jefferson Nickels are gaining traction in the PR67 grade column as dealers raise sight-unseen Bid by as much as 25%.

Stack's Bowers is currently conducting a public Americana Auction in New York that is set to conclude on Thursday February 6. In addition to the next round of weekly internet only auctions held each Sunday by: David Lawrence Rare Coins, Stack's Bowers, Great Collections and Heritage, is the Legend Morphy sale taking place Thursday February 13th in Sin City. This modest boutique like sale of just under 400 lots is scheduled to coincide with the PCGS Members Only trade-n-grade show running through Friday February 14 at the Venetian/Palazzo hotel in Las Vegas. This sale includes many noteworthy lots, including Simpson Seated Quarter duplicates, with several from the Greenwich collection in addition to a group of 52 high end Peace Dollars. Legend Morphy has raised the fee they charge winning Bidders to 17.5% beginning with this sale, which is more inline with what most other companies charge when holding live public coin auctions.

CAC Breaks New Milestone

In six short years, CAC has passed many milestones. As we celebrate our sixth birthday, CAC has smashed a new milestone - the evaluation of over 550,000 coins with a market value of over $2.4 billion.

CAC was established by leading members in the numismatic industry who recognized the need for a higher level of grading. CAC has revolutionized the market and continues to experience impressive growth.

CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. That's because CAC only awards the green sticker to coins that meets it's stringent standards. What's more, CAC provides liquidity to the market. Since its inception, CAC has purchased coins in excess of $340,000,000.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

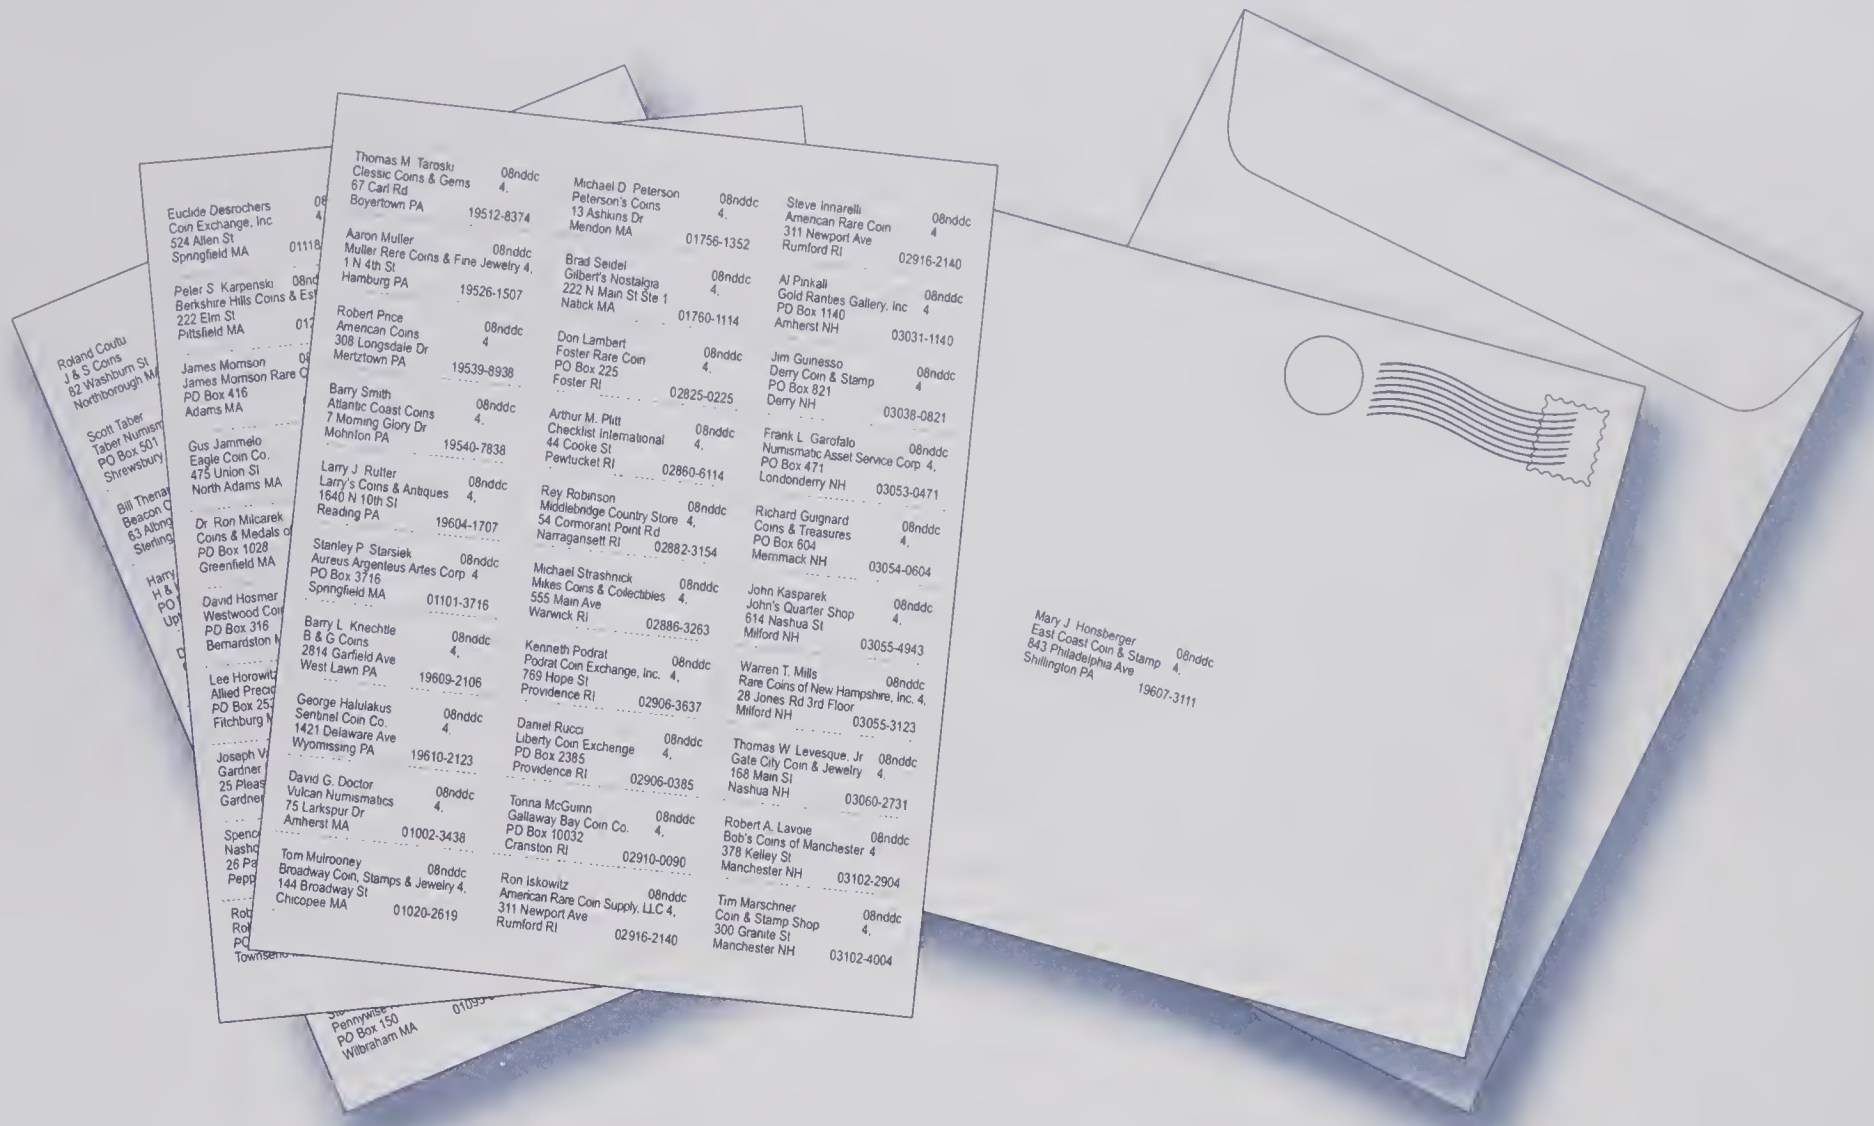
Need to Mail?



Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2013 Numismatic Dealer Directory**™ are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only $385 — well below the mailing industry standard of $95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and $25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2013 Numismatic Dealer Directory.

I understand that my $385 fee entitles me to only one usage of these addresses. _____

$1,300 Gold Brings Optimism Tight Market For Type Barbers

Good news from the stock market and precious metals arena bodes well for the rare coin market, and that describes the current economic condition. Federal Reserve Chairman Janet Yellen's recent remarks that the economy was strong enough to handle further stimulus cuts resulted in the biggest four-day stock rally in over a year for the major indexes with the DJIA rising 1.4% to 16,028. Precious metals are also up across-the-board. Gold has surpassed the psychologically important $1,300 per ounce benchmark, a fourteen week high, and Silver is $20.50, up 5% from last week. The other white metals are also performing well, settling at $1,417 and $731 for Platinum and Palladium. Sight-unseen trades through the dealer-to-dealer wholesale exchanges have picked up considerably compared to last week's $70K, rising to $155K in consummated transactions.

Mint State Type Bid levels continue to be very stable and well supported, and except for the occasional piece that sells short of wholesale Bid at retail public auction, this segment remains strong overall. Proof Type is pretty active with a fair amount of declines recorded, mostly in response to the poor prices realized in last week's pair of New York sales. All denominations of Barber coinage are moving lower in both Mint State and Proof condition with multiple grades affected. PCGS has graded quite a few more than NGC in the majority of grades listed in the chart below and may account for several of the NGC Bids being higher. The largest discrepancy in pops is for Barber Half Dollars in MS63/PR63 where PCGS has graded around 50% more than NGC. Most of these Barber issues can readily be purchased in public auctions for levels at or near sight-unseen Bid, offering little downside risk.

Classic Silver Commemoratives continue to move lower. Some 88 downward adjustments have been recorded this week, continuing the ongoing trend that began several years ago. Much, if not most, of this negative activity is driven by sub-Bid prices realized at auction in addition to discounted dealer Asking prices. Isabella Quarters are the largest declining issue within the Silver Commem segement, losing 15% in PCGS MS65 to a record low Bid of $1,400. These have a combined pop of 865 in MS65 with 415 graded higher. Three Gem PCGS examples sold at public auction this past week and realized: $1,528; $1,586; and $3,525. Generic Morgan Dollars are seeing positive feedback after falling to a $59 sight-unseen Bid last week and are right back up to $61 this week in MS64. Very Choice examples of the 1901-S were the biggest gainers within Dollars, jumping 5% to $860 Bid, a high not seen in decades. Six examples have sold at public auction so far this year ranging in price from $823 for an ANACS slab to $1,187 for a PCGS+/CAC example. A nicely toned 1921-D Morgan graded MS67 by PCGS with a PCGS pop 6 plus one finer (67+) brought in $22,325 at the New York Stack's Bowers Americana sale. An 1878 8TF in PCGS MS63DMPL+ also did well this past week bringing in $2,235 at Heritage's New York auction. $280 is the amount that was left on the table when an 1896-S Morgan Dollar in PCGS MS64 plastic brought in a depressing $3,820 at the Stack's Bowers auction as there is a standing visible Bidder still willing to pay $4,100 sight-unseen.

1940-S Mercs find themselves reaching new higher ground as Bid climbs to $300 in MS67FB. PCGS examples, with a pop of 145 and 14 finer, are gradually rebounding after a slow decline in price over the past decade, having bottomed out last September at a Bid of $235. NGC has slabbed 94 in MS67FB and two finer, jumping 33% from this time last year. Reductions are few and far between compared with the flurry of minus signs seen last week for this series. Surprisingly, a beautiful 1930-S piece in NGC MS67FB realized $1,880 during a recent auction outing when Bidders are readily willing to pay $2,000 sight-unseen. Common date Walkers are slipping a bit in MS64 with 1941-D examples taking the largest hit of nearly 30%. Other declines are not nearly as severe, ranging from 2%-6%.

Several dealers are currently in Las Vegas for the PCGS members only show running February 12-15 where Legend-Morphy will hold an auction February 13 at the Venetian Hotel. February is certainly a busy month for shows. The St. Louis Numismatic Association will celebrate their 50th annual Greater America Coin Fair, February 14-16, with dealer set-up on the 13th. Next is the Greater Chicago Coin, Currency and Collectibles Show February 27, 28 and March 1 at the Tinley Park Convention Center. Then it's time for the big ANA National Money Show February 27 thru March 2 at the Cobb Galleria Centre in Atlanta. This show will include an auction by Heritage.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest reported sight unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The frame that holds a masterpiece does not influence it's value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in it's holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

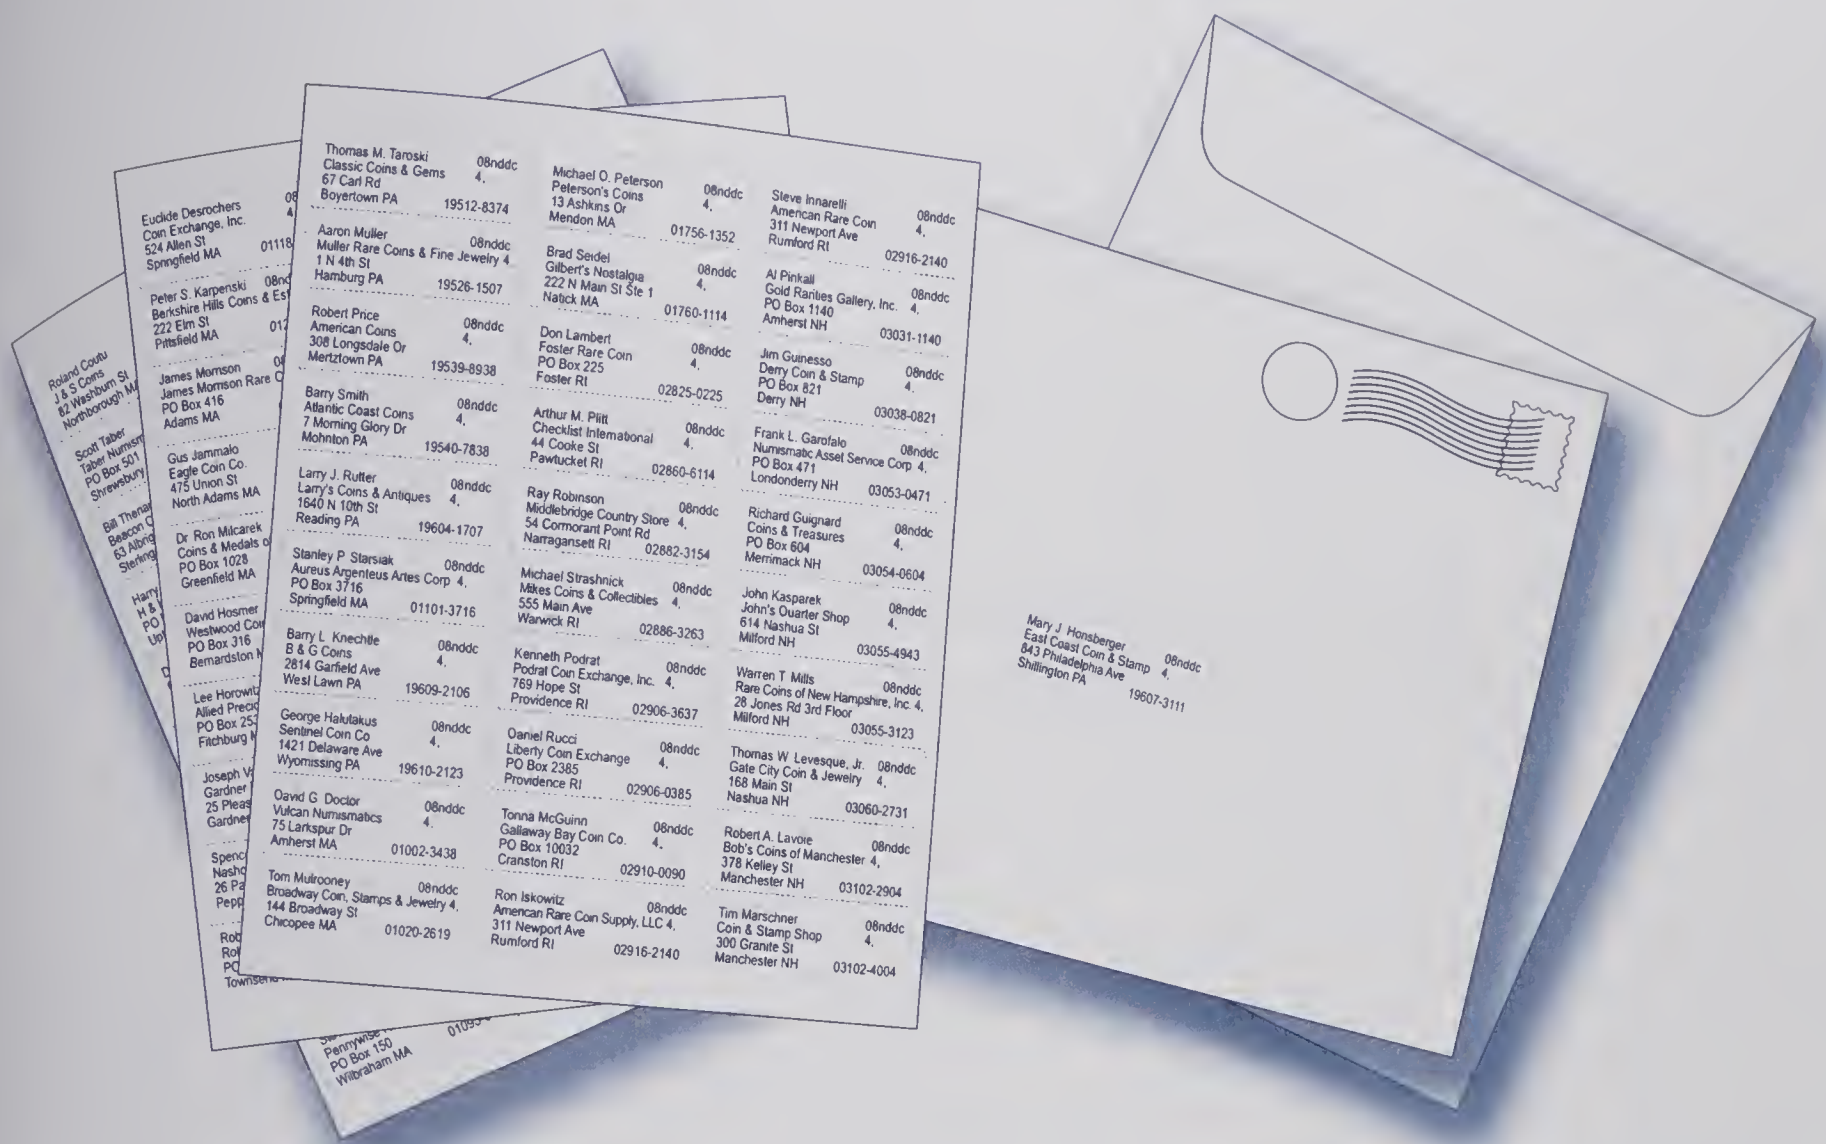
Need to Mail?



Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2013 Numismatic Dealer Directory**™ are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only $385 — well below the mailing industry standard of $95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and $25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2013 Numismatic Dealer Directory.

I understand that my $385 fee entitles me to only one usage of these addresses. _____ SIGNATURE

Sight-Unseen Market Remains Healthy Over $136 Million Hammered At Auction In 2014

Dealers have returned from their trip to Las Vegas after attending the PCGS Members Only trade and grade event. Legend-Morphy held an auction in conjunction with the show on February 13 and brought in over $2.6 million with the top lot realizing $182,185 for a 1796 No Stars Quarter Eagle graded AU58 by PCGS. Combine this $2.6 million with the results from this week's internet only auctions from Heritage, Stack's Bowers, David Lawrence, and Great Collections for an astonishing $136,287,782 in auction sales recorded so far in 2014. Heritage will hold the official ANA auction February 27-28 and March 2 in Atlanta which consists of material from the following collections: Christopher Bentley's Nob Hill; the Fidelis; and the Donald E. Bently, sold for the benefit of the Bently Foundation. We have listed some of the many highlights herein. Precious metals have remained strong, with the yellow metal well over $1,300 an ounce, to settle at $1,317 and Silver Spot is creeping up to $22 an ounce. A decent showing took place through the sight-unseen wholesale trading exchanges this week with a total of over $120,000 transacted. A few coins worthy of note that traded sight-unseen through this medium were a Barber Dime graded PCGS PR67 CAC that went for $3,750 and a Bid of $3,600 was hit for a Liberty Seated Half in NGC PR67. Two other impressive examples include a pair of Choice 1914-S $5 Indians, one in PCGS plastic and the other in NGC, and both traded blindly for $12,200 each.

At least one dealer has raised the ante from $20,000 to $28,500 for a 43% sight-unseen Bid jump for any of the three 1888-S Morgan Dollars graded MS67 by PCGS. NGC has yet to grade an example at this grade level and neither service has seen a finer specimen. The last one in this grade to sell at public auction took place in January of 2009 when it realized $21,800. A beautiful 1882-CC GSA Dollar in its original government black plastic slab fully encapsulated and graded by PCGS as MS67, with a pop 1, none finer is going up for auction at the ANA through Heritage. 1889-S and 1891-CC Dollars are recipients of higher sight-unseen Bids offered for either service in MS61 and MS62. An 1880-CC graded PCGS MS64 had a poor showing at a recent auction, realizing only $500 when a standing sight-unseen Bid of $565 is being waved around. Key date, 1921 Peace Dollars graded by PCGS are seeing Bid increases in grades MS62, MS63 and MS64. Later Date Peace Dollars in MS66 with the green bean attached are needed at higher sight-unseen Bids. Select generic Morgan and Peace Dollars are once again moving higher with the former increasing in Choice to $48 Bid and the latter up to $105/$100 in Gem for PCGS/NGC.

A bright white 1934-D Walking Liberty Half Dollar graded MS66 by PCGS with CAC approval brought in a whoping $3,055 during Legend-Morphy's most recent Las Vegas sale. A first year issued 1936 Walker graded PCGS PR67 CAC with a CAC pop of 12 took in $15,275 at the Vegas sale. Walking Liberty Half Dollars dated 1916 through 1933-S in MS64-MS66 with CAC sticker and or + grades are seeing great support with buyers willing to pay at or near listed sight-unseen Bid as listed on Supplemental Page H. Proof Barber Quarters and Half Dollars are now headed higher after last week's declines. Proof Barber Dimes are still suffering however, losing some 7% in PCGS PR65.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity, including [illegible] reported sight unseen Bids, Asks, Trades, prior levels, and auction prices. The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers [illegible] fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

$10 Million Hoard Headed For Amazon Sight-Unseen Market Offers Instant Liquidity

The sight-unseen market for certified coins is chugging right along, as well in excess of $175K has changed hands over the electronic dealer-to-dealer wholesale exchanges in the last week. This is a strong number considering the fact that the ANA National Money Show is underway in Atlanta with a sizable auction by Heritage closing March 2. Big news has hit the rare coin scene along with mainstream media exposure. A hoard of 1,427 19th century Gold coins was discovered buried in six decaying metal canisters on private property in Northern California. Most of these coins are Double Eagles struck at the San Francisco Mint between 1855 and 1894. A portion of this treasure is currently on display at the ANA show. In total, this treasure trove, described as the "Saddle Ridge Hoard" is estimated at over $10 million with a face value of $27,980. Over one dozen of these coins are currently the finest known or tied for the finest known in the PCGS Population Report including these highlights of the cache; 1866-S No Motto Double Eagle valued at close to $1 million; additional $20 Libs include an 1877-S PCGS MS65; four 1888-S PCGS MS64 examples; two 1889-S graded PCGS MS65; an 1894-S in PCGS MS65; and an 1886-S $10 PCGS MS66. Though the entire breakdown list has yet to be released, there are 1,350 Double Eagles, 50 Eagles, and 5 Half Eagles. The owners, who wish to remain anonymous, are planning on selling 90% of the hoard on Amazon.com as Kagin's Buried Treasure.

Morgan and Peace Dollars are continuing to show strong demand across-the-board for low grade generics through high-end rarities. 1895 Proof Morgan Dollars are wanted at sight-unseen Bids that are now up to $4,000 higher in MS61-MS64 in an attempt to lure out potential sellers. These have a total combined pop of 377 in these grades with nearly 100 more wearing the Cameo designation. 1888-S Morgans in PCGS MS67 are seeing an even larger sight-unseen offer of $30,000; this is a $10,000 increase in the last two weeks. 1903-S cartwheels graded MS61 by PCGS are needed at a higher sight-unseen Bid of $4,500 in addition to NGC examples being needed at $4,200.

With a pop 36 and 17 finer a beautiful golden toned 1945 Mercury Dime graded PCGS MS65FB brought home $14,500 through a recent David Lawrence on-line auction. This example and many more important auction prices realized can be seen in this week's Market columns. Common date Mercs in MS67FB are now needed at a higher sight-unseen Bid of $124 for slabs from either of the two services.

Commemorative Silver coinage is coming alive after months and months of softening prices. Thirty-six issues have advancing Bids and some of the increases are noteworthy. Lafayette Dollars in MS65 have popped to $5,000, a gain of 7.5%. Monroe Doctrine Halves grading PCGS MS64 have jumped 30% to $130 sight-unseen Bid with the bulk of the advances in other material ranging between 4%-7%. Unfortunately a Spanish Trail was sold sight-unseen for $1,130 in NGC MS66 through one dealer-to-dealer exchange, while on another trading network dealers are offering $1,250 for examples grading 1-point lower at MS65. Gold Commems are unbelievably solid. Every single issue from the 1903 Louisiana/Jefferson Dollar right through the $2½ Sesquicentennial, in grades MS61 thru MS66, have buyers ready to blindly purchase at current Bid. Even the very pricey $50 Pan-Pac slugs in PCGS MS63, MS64 and MS65 have dealers ready to instantly cut a check.

Demand, demand and more demand describes Mint State and Proof Type. Bidders are several layers deep for some issues and supply can't pace dealer's needs. Silver Type is particularly hot, and although prices haven't risen much in the last few weeks, there are buyers in the wings looking to snag anything from Draped Bust Half Dimes in MS61 to Proof Morgan Dollars in PR65. Mint State Gold Type is continuing to firm up and remains strong in Proof with rock solid support from Bidders regardless of grading service.

Collectors Universe, parent company to PCGS, announced that they had authenticated and graded its 50 millionth item on February 26, 2014 at the ANA National Money Show in Atlanta, an 1888-O Morgan Dollar in PCGS MS66+. PCGS also announced a new crossover policy allowing submissions graded 70 by another service to be graded MS70 or PR70 as a minimum grade. If the coin does not meet PCGS's standards, it will be returned in its original holder. The Numismatic Consumer Alliance, Inc. (NCA) is continuing to recover large sums to those who have been victims of scams. In 2013 alone, NCA helped recover nearly $1 million for consumers who were victims of unethical sales, according to NCA founder and president John Albanese. NCA recovered this $955,000 from ten cases for unknowledgeable buyers, often the elderly, who purchased grossly overpriced coins primarily from telemarketers selling American Gold and Silver Eagle bullion coins. These coins are certified as 69 or 70 and claimed by some telemarketers to be rare in those grades, which is not true. Often, these abuses are brought to light by the victims' children who discover that their parents are being taken advantage of.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, bourse floors and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (*w*eek old); "m" – Lowest asking price during the previous three weeks (*m*onth old); "t" – *T*rade during the most recent month; lm – Lowest asking price appearing *l*ast *m*onth "lt" *T*rade appearing *l*ast month; "ot" *T*rade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

CERTIFIED COIN DEALER newsletter

Vol. XXIX No. 10 | March 7, 2014 | Single copy price $5.00

Generic Cartwheels Continue Climb
Original GSA Dollars Skyrocket

After the successful ANA gala and $15,000,000 auction by Heritage (list of highlights herein), dealers are now preparing to attend local and regional shows like the Tennessee State Annual Spring Coin Show, March 7-9, in Chattanooga. The following weekend is set for the Michigan State Numismatic Society's Coin Show in Dearborn. That same weekend is the Northwest Coin Club's 80th Annual Money Show in Brooklyn Center, MN. Of course the big show comes at the end of the month with the 42nd annual Whitman Coin and Collectibles Baltimore Expo, March 27-30, at the Baltimore Convention Center. Stack's Bowers Galleries will handle the auction duties at this show. A special feature of the upcoming Expo is a question and answer symposium with the three founders of the company, Harvey G. Stack, Lawrence R. Stack, and Q. David Bowers which will take place Friday, March 28.

A healthy sight-unseen market for certified coins remains in place as the electronic dealer-to-dealer exchanges have culminated over $200K in transactions this past week. Precious metals remain in the picture as Gold has reached a four month high, closing today at $1,352 per ounce. Silver is up as well to a Spot of $21.54, while Platinum settled at $1,487, and Palladium closed up at $781 per ounce.

A few Morgan and Peace Dollars in ANACS slabs performed well at auction recently. A bright white 1878 7TF (Rev. 79) cartwheel with a little toning around the edges, graded MS65 by ANACS took home $2,000. For comparison two PCGS and one NGC example in the same grade just sold for $1,880, $1,765 and $1,530 in the ANA sale. An ANACS slabbed 1935-S Peace Dollar graded MS66 took in a whopping $3,055 through the Heritage ATL sale. 1891-S DMPL Dollars in Very Choice are wanted at a higher sight-unseen Bid of $1,500 increasing as much as 43% since our last report. A 3% increase has been recorded for 1888-S Morgan Dollars graded MS67 with a pop 3 all in PCGS plastic to a sight-unseen Bid of $31,000 offered to anyone who may hold one of these rarities. Generic Morgan Dollars are still pushing higher with MS66 examples moving up to $245 Bid with large quantities needed. Common date Morgans are also higher in MS64 at $62, while Peace Dollars in MS63 and MS64 were pushed to $36 and $49 respectively. Original GSA Dollars with Box and Certificate continue to see increased demand as a handful of Bids move higher. These same Dollars with the NGC wraparound grade sticker are extremely hot. Some 16 issues moved higher with the leader, 1880-CC in MS66 increasing 69% to a new sight-unseen Bid of $6,575. An 1882-CC GSA Dollar in its original government black plastic slab fully encapsulated and graded by PCGS as MS67, with a pop 1, none finer, hammered for $11,750 through last week's auction. A second year Morgan 1879-CC graded MS65+ by PCGS with a pop 4 with just 2 finer (MS66) will be on the auction block in Baltimore through the Stack's Bowers auction. Also in the Baltimore sale is a 1937-D 3-Legged Buffalo Nickel graded MS65+ by PCGS, one of just two CAC has approved.

David Lawrence saw a rarity get picked up through their latest on-line auction, a 1925-S Merc Dime MS65FB graded by NGC, having a pop 24 with 13 finer which brought in $2,800. This week, fifty PCGS Gem Mercury Dimes sold sight-unseen for $15 each, while 40 Mercs graded PCGS MS66 changed hands blindly for $23 a piece. A few attractive Walking Liberty Half Dollars that sold in last week's ANA sale include: 1935-D graded MS65 by NGC, this with a pop 152 and 5 finer brought in $2,235. Next, with a pop 405 and 38 finer, a 1938-D in a PCGS MS66+ holder went for $2,820. Lastly a 1946 Half graded MS67 by PCGS this having a pop 51, none finer, took home $2,705. Money was left on the table for a Liberty Seated Half with Motto graded NGC PR66 as a sight-unseen trade took place for $3,200 through one wholesale trading network when dealers on another exchange are offering $3,400 for the same coin. Silver Commemoratives continue to soften as numerous examples realized recent auction prices between 2% to 12% below sight-unseen Bid. To a lesser extent the same activity is occurring in Commemorative Gold as auction sales on certain items are coming in as much as 6% below sight-unseen Bid. However, a sizeable sight-unseen trade took place on one of the dealer trading networks as a Grant with Star Half Dollar in PCGS MS65 exchanged hands for $4,600.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

THE COIN COLLECTOR'S SURVIVAL MANUAL® SEVENTH EDITION

by Scott A. Travers

NEW! UNTOLD SECRETS OF BUYING AND SELLING SCRAP METALS

"The gold standard for coin books on consumer protection and investment."
–Ed Reiter, author, *The New York Times Guide to Coin Collecting*

PREPARE FOR 2012 AND BEYOND! Scott A. Travers reveals shocking new secrets of our changed world and tells how you can prosper and avoid even the smallest mistakes in the treacherous coins and precious metals marketplace. This totally rewritten straight-forward guide candidly examines all of the issues needed to survive the global financial collapse and examines the controversies of playing the "crack out" game with third-party encapsulated coins, the dangers of online auctions, and coin doctoring.

1,286 consumer protection caveats give you the most candid advice on how to buy and sell coins profitably, whether it's a sleeper found on the bourse or a multi-million dollar rarity seen at auction. Detailed photographs of coins with genuine and difficult-to-detect artificial toning give you unprecedented side-by-side comparisons.

Illustrated with more than 260 state-of-the-art digital color and black and white images of coins, this 390-page guide packs a powerful, one-two punch. It combines a thorough update of earlier editions of *The Coin Collector's Survival Manual* with another of Travers' seven acclaimed books, *How to Make Money in Coins Right Now*. Both were bestsellers in their own right, and now both are available in a single, updated and timely volume. Among the topics covered in the new mega-book:

- ✓ **Everything you need to know about those tricky "+" or in-between grades**
- ✓ How you can capitalize on the gyrations of gold prices when buying rare, generic and "spread" gold coins. What specific coins you should buy when gold is moving up, and how to minimize losses when gold prices are falling.
- ✓ **Extraordinary insights and secrets of crack-outs and getting lucrative upgrades from third-party grading services. Well-known dealer Jim Halperin tells how he made millions in profits by resubmitting coins and reveals details of his ownership interest in NGC.**
- ✓ How to protect yourself when buying CAC-verified coins.
- ✓ **Exposing the pitfalls and avoiding the perils when buying coins through online auctions.**
- ✓ Detecting altered, counterfeit and "doctored" coins.
- ✓ **How the popular registry set programs have changed the numismatic market, and how to use registry sets to your advantage.**
- ✓ Fake PCGS and NGC holders featured in detailed photographic blow-ups
- ✓ **Comprehensive discussions by leading experts about tax consequences on buying and selling numismatic items, including record keeping, estate planning secrets, retirement plans and in-kind exchanges.**
- ✓ Updated chapter on financial privacy authored by attorney David L. Ganz.

This is the book about the coin business "you can't afford to be without." ***Newsweek***
"Should be read before a single coin is bought - and read again and again!" ***Coin World***
"Travers is fearless in revealing the behind-the-scenes realities of the coin dealing profession." ***About.com***
"A sensational read…the ultimate manual to get your money's worth." ***Rosen Numismatic Advisory***
"...if followed closely, it should help [you] do far more than just survive; it should point the way to prosperity." ***The New York Times***

Now you can survive, prosper and be safe in an unsafe world!

CERTIFIED COIN DEALER newsletter

Vol. XXIX No. 11 | March 14, 2014 | Single copy price $5.00

Gold At Six Month High
Sight-Unseen Bids Explode

As was the case last week, the sight-unseen market remains quite sturdy with more than $200,000 in blind trades over the electronic dealer-to-dealer exchanges. This is at a time when dealers are attending local and regional shows. Also, dealers are preparing for a pair of Heritage auctions in San Francisco that are coming up. March 20 is scheduled for the sale of selections from the collection of Donald E. Bently, while March 21-23 is set for a standard catalog sale of US coins. Fast approaching is the big Baltimore Expo. March 27-30 is slated for this numismatic gala which includes an auction by Stack's Bowers (see highlights herein). Gold is making even more noise as Spot for the yellow metal reached a high not seen since early September 2013 at $1,372 per ounce. Silver is down a bit from last week to $21.17 an ounce. Platinum is also lower from our last installment, coming in at $1,479. Palladium is a bit weaker as well with a close of $779. The Platinum/Gold spread has come in at -$107, a noticeable change from last week's -$135.

Demand for Mint State Silver Type is running rampant with higher sight-unseen Bids. Some 60 issues have plus signs, signifying that dealers need material and are willing to pay more than the last offer to acquire it. Choice Barber Dimes graded by PCGS are at the top of the leader board within this segment with a 26% increase recorded. The high Bidder is now offering $165 for any date and mintmark and will even take the worst possible example—no questions, no returns. Many of the market-makers working the sight-unseen side of the wholesale dealer trading networks have commented that much of the material they receive through this venue is of average quality. Absolute dogs are definitely not the norm but do show up from time to time. The most recent group of 15 MS63 Barber Dimes in PCGS and NGC plastic that sold at retail public auction in the past 30 days realized an average of $220. Among the auction leaders in this sampling was a 1906-S that brought $470 in NGC and a 1900-S that hammered for $382 in a PCGS slab. On the bottom of the list was an NGC 1892 that sold for $144 and PCGS 1908 that realized $135. These last two examples exemplify what a great Type coin for collectors this issue is by offering little to no downside risk with published sight-unseen Bids of $165/$170 acting as virtual buy-back offers. Another dozen or so higher Bids are targeting other Barbers in various grades and denominations.

Mint State Gold Type is still struggling to find a solid path North. Declines are nearly even with advances, even with the recent boost in Gold Spot to a 25 week high. $20 Saint-Gaudens in MS67 are among the handful of winners here, jumping by 6% or $300 to $5,750 Bid. Proof Silver Type is just as strong as their Mint State counterparts with market-makers placing quite a few higher Bids in hopes of triggering sales for much needed inventory. Liberty Seated coinage is dominating this round of increases with all denominations participating, from Half Dimes through Dollars. Seated Dimes with Arrows (1873-74) in NGC PR65 are the pack leaders by jumping $300 higher to $3K. In the past 12 months only one example of this issue with a combined pop of 60 in PR65 sold at auction, a PCGS 1874 that realized $4,113.

After untold months, even years of weakness within Classic Commemoratives, we are reporting what certainly appears to be a reversal. Whether this is short term or long remains to be seen, but whatever it is, it's dramatic. There are nearly 3 advancing Bids for every decline with 123 Bid increases and 50 decreases. The biggest percentage mover is the Lynchburg, VA Sesquicentennial in NGC MS66 advancing 12% and in terms of dollars it's the Hawaiian in NGC MS65 increasing $200. Despite this bellwether move in higher prices there are still numerous issues that regularly sell at auction for less than sight-unseen Bid.

Generic Mercury Dimes with Fully Split Bands are displaying increased sight-unseen Bids in MS66FB, now at $40. Common date Walking Liberty Half Dollars are also receiving a Bid bump, with $35 looking for multiples grading MS62 by either service. Likewise, Proof Like Morgan Dollars are seeing a round of higher sight-unseen Bids across-the-board, with dealers now blindly offering $94, $124 and $200 for any date in MS63PL, MS64PL and MS65PL. Compare these Bids with sight-unseen offers for Mint State Morgans without the reflective surface designation at: $48, $62 and $135. Carson City Dollars are receiving the bulk of increased Bids within MS Morgans, jumping as much as 8% higher in MS63. Common date Peace Dollars round out the widespread positive activity within the sight-unseen marketplace with Very Choice commoners now up to $50 Bid.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest non-exposed reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades well near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Proofs. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

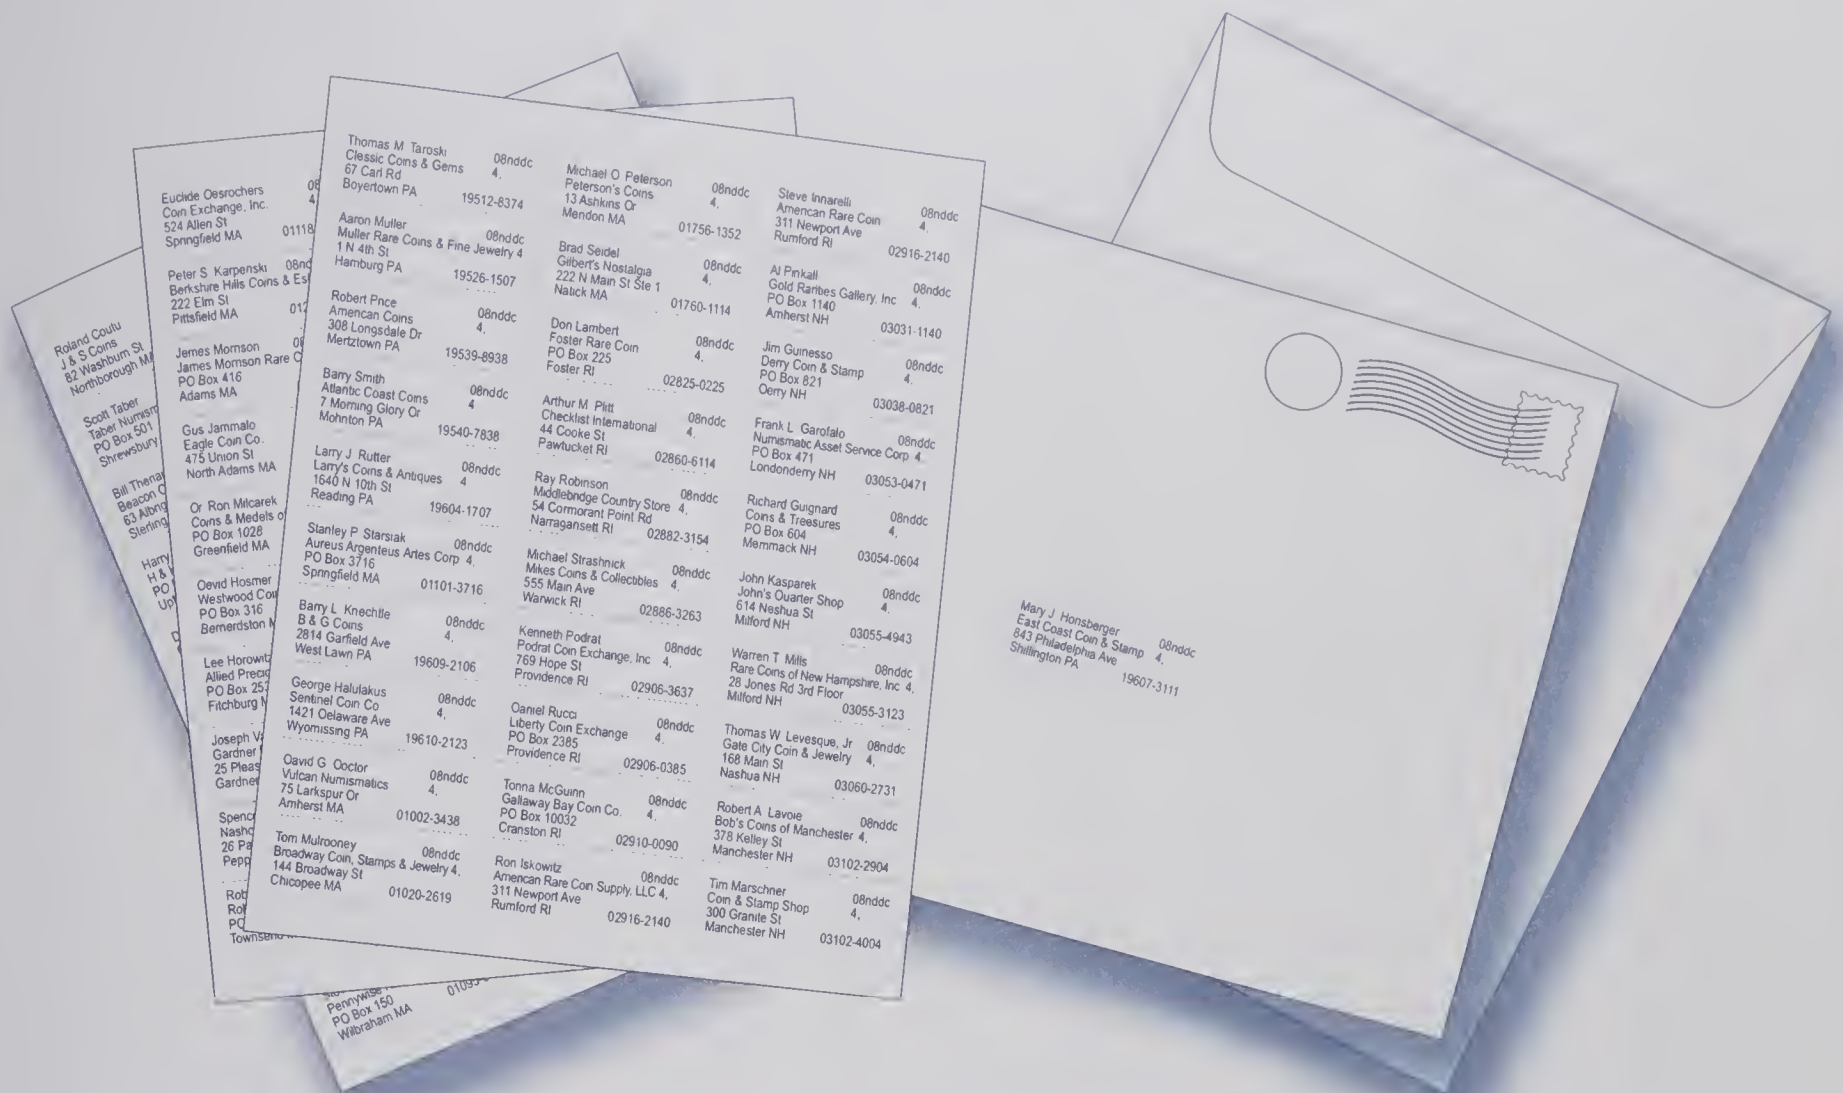
Need to Mail?



Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory**™ are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only $385 — well below the mailing industry standard of $95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and $25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my $385 fee entitles me to only one usage of these addresses. _____ SIGNATURE

Higher Bids Zero In On CAC/+ Gold Falls From A 6-Month Run Up

This week, the Fed has caused a bit of a stir as markets responded with some negativity after new Chair Janet Yellen held her first official meeting. Against a backdrop of political and economic uncertainty, largely due to Russia's involvement in the Ukraine, many participants are concerned that rate increases may come a bit sooner and be more aggressive than hoped for. In a post meeting press conference, Yellen suggested a time frame for raising the funds rate in the order of six months once QE ends. The Fed changed its funds rate for the end of 2015 from .75% to 1.00%. That day, the DJIA finished down 114 points, and Gold, losing some status as a safe haven, has fallen from a lofty six-month high of $1,379 to finish off last week to a current level of $1,331 today. Silver is down as well, nearly one dollar per ounce lower from last Friday, at $20.40. Platinum Spot has dropped nearly $35 from March 14, and levels for Palladium are down a bit also. A slowdown has taken place over the last seven days in the dealer-to-dealer electronic exchanges with just over $160K in sight-unseen trades taking place. A rather high number of Asks were executed for generic Gold Type this past week, usually only seen when Gold Spot spikes, as witnessed last Friday.

Type material is still the focus of many dealers which is evident by the dozens and dozens of supporting sight-unseen Bids for examples of most designs. Multiple buyers are in place ready to pay current levels, or more, to obtain the material they want. Demand for some issues, like Barbers for example, is insatiable. Wall-to-wall Bids are in place for Barber Dimes, Quarters and Halves in all grades we report on. Unfortunately a couple of examples recently sold via auction for less than sight-unseen Bid, one an NGC 1916 Barber Dime in MS66 and another a 1916-D Barber Quarter in NGC MS62, both going for about 94% of sight-unseen money.

At the upcoming Stack's Bowers auction in Baltimore there will be an offering of some very special Commemoratives. The following are a couple examples: A 1934 Boone PCGS MS67, population three, one finer. Just a shade over 10,000 units of this issue were distributed. Also a 1939-S Arkansas in NGC MS67 is being offered for sale. This last year of design with 2,105 Unc examples originally sold, now has a population of four in Superb Gem with none finer. Silver Commemoratives are mixed in this week's sight-unseen marketplace with material that is solid to the top-end for the assigned grade advancing. A dozen CAC approved slabs are moderately higher in grades MS64-MS66. Columbia South Carolina Sesquicentennial Type in MS66 is at the top of the plus list, advancing 14% since our last report. Just under 100 Columbia PDS Sets have been stickered in this condition, broken down as: 100(P), 96(D) and 94(S). A mere 31 Sets can be assembled in MS67 with a single finer Set residing in MS68 holders and bearing the green bean. Gold Commems have a slightly different story to convey as sight-unseen Bids for Gem and better CAC examples ease back.

Better Morgan Dollars are still increasing, albeit somewhat selectively in various grades. Among the top percentage gainers are 1900 O/CC cartwheels in NGC plastic with an MS65+ label which have advanced 31% to $1,700 Bid. PCGS Plus examples of the same date and grade also moved higher increasing by $90 or 5%. NGC has awarded the MS65+ grade to 2 of these Dollars while PCGS has encapsulated 16 Gems with the coveted + label. Even though common date Morgan Dollars are down a bit in Choice to $46 Bid, the remaining grades are solid at current levels. Overall, Peace Dollars continue to be in demand with only a couple of minor declines occurring. Key date, 1934-S examples are needed at higher levels in NGC MS64+ and MS65+ increasing $1,550 to a Bid of $6,750 for the latter - a 30% bump. Among Mercury Dimes, dealers are searching for a Gem 1925-D with Full Band designation graded by PCGS, and at least one dealer has increased blind Bid by 42% to secure the first one made. In reality this dealer will likely take any of the 31 examples PCGS has slabbed as MS65FB if attractive and accurately graded (sight-seen) but must accept any plus (+) graded example through CCE terms, returns not an option. A quartet of Walkers are on the rise, as seen in the PCGS MS65+ grade column, with the 1929-D escalating $90. A 19% hike to $68 Bid is after Walkers dated 1941-D and graded MS64 by either service. This issue would seem to be readily available with a combined pop of 3,643 and over 9,000 graded finer, yet a Very Choice example has not sold through public auction since December of last year.

Following next week's Baltimore Coin and Collectibles Expo March 27-30 will be a busy April show schedule, including the Las Vegas Numismatic Society Coin Show being held April 4-6 at the Palace Station Hotel & Casino. In addition, the 39th annual Chicago International Coin Fair is slated for the 10th-13th and features an auction by Heritage. Holding their 75th show, the Central States Numismatic Society Convention is also in the line up, April 23-26 in Shaumburg, IL with an auction by Heritage as well.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest publicly reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

$1.29 Million Paid For $20 Saint
$13 Million Crosses Block In San Francisco

Heritage held two auctions in San Francisco, one of which was the collection of Donald E. Bently, March 20, and the other a Signature auction of US Coins, March 21 & 23. We have combined the two sales in a prices realized highlight list included herein. The Bently sale featured a mere 595 lots and realized nearly $9 million, while 2,052 lots sold in the Signature sale which brought in $4.3 million. This disparity may very well speak to the bifurcation of quality in today's marketplace. These Heritage San Francisco results combined with totals from all of the numismatic auction firms, pushes the overall sales through this medium to just over $170 million since January 2014.

Dealers are currently attending the Baltimore Expo, looking to fill want lists, replenish inventory, and make that great deal. Hopefully, weak metals won't rain on this parade, as Gold has dropped to below that all important psychological benchmark of $1,300 an ounce, now at $1,295 and Silver remains under $20 for the last several days, now resting at $19.69. The expo features an auction from Stack's Bowers, who just sold a 1936 Nobel Peace Prize found in a South American pawn shop. The prize, originally awarded to Argentina's foreign minister, Carlos Lamas, sold for $1.16 million, well over the high estimate of $100,000. The winning Bidder is a collector from Asia who wishes to remain anonymous. Only one other Nobel Peace Prize is known to have come to auction—a 1903 medal that sold for nearly $17,000 in 1985.

Demand for generic Morgan and Peace Dollars remains in place with unfulfilled wholesale orders overhanging the marketplace. Dealers have once again increased their sight-unseen Bids for common date cartwheels in Choice and Very Choice. Slightly better first year of issue, 1878 7-Tail Feather Morgans are increasing by as much as 7% in like grades. New Orleans minted 1886-O Dollars are the standout leader in the series, both percentage wise at +9% and on per dollar level, advancing $100 to $1,250 for NGC MS62 slabs. Currently NGC has recorded 475 examples at this grade level in their census, while PCGS has a pop of 685. Two NGC examples have sold in auction this year, realizing $1,998 and $2,115. During the same time, four PCGS slabs sold in public sales, ranging in price from $1,645 to $2,585. A few dozen issues are down, mostly due to lower wholesale Asking prices and recent retail auction results. This information can be seen in the Market columns published the forth week of each month. A couple of stellar results for better Peace Dollars witnessed this past week include $9,750 realized for a 1934 in MS66+ with CAC sticker in a DLRC online sale and $4,113 was paid for a 1934 PCGS MS65+/CAC in the Bently sale.

Mint State Gold Type is mixed with advancers and decliners. All of the sight-unseen Bid increases are for grades MS65 and higher, jumping by as much as 17%. Many of these higher Bids are now more inline with recent auction results. Dealers are paying $3,500 for any of the 345 $5 Libs PCGS has graded MS66. The last three examples to cross the auction block were: 1903-S $3,819; 1902-S $4,700 and 1899 $3,525. Liberty Quarter Eagles also moved to a higher sight-unseen Bid of $3,500 for those in PCGS MS67 holders, of which 410 exist. Two examples of the Type brought $4,003 and $4,113 in Frisco this past week for a 1902 and 1905 respectively. Proof Barbers continue to heat up with sight-unseen Bid increases in place for all denominations. Proof 62 Barber Quarters are now needed at $480 Bid while Barber Dimes in the same grade are now valued at $350 for even the ugliest of examples. It will be interesting to see if market-makers can support these higher numbers as much of this material is readily available on the bourse and online. More information, including dealer-to-dealer trade figures can be located in the corresponding Market columns. Proof Walking Liberty and Franklin Half Dollars are pulling back a bit after a slew of recent discounted auction results combined with a lack of meaningful sight-unseen Bids.

A trio of better Silver Commemorative Half Dollars is the recipient of higher sight-unseen Bids in MS61-MS66. Hawaiians in NGC MS66 plastic are the hands down leader in this segment, with Bid escalating $300 to $5,900. Spanish Trails and Hudsons round out the group with Bids also moving by as much as 5% higher. See the chart at right for PCGS and NGC certified populations in MS63-MS66.

April will continue with a busy auction and show schedule, including the Las Vegas Numismatic Society Coin Show being held April 4-6 at the Palace Station Hotel & Casino. In addition, the 39th annual Chicago International Coin Fair is slated for the 10th-13th and features an auction by Heritage. Holding their 75th show, the Central States Numismatic Society Convention is also in the lineup, April 23-26 in Shaumburg, IL with an auction by Heritage as well.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid to by Asks or Bids near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, price sheets and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; **lm** – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

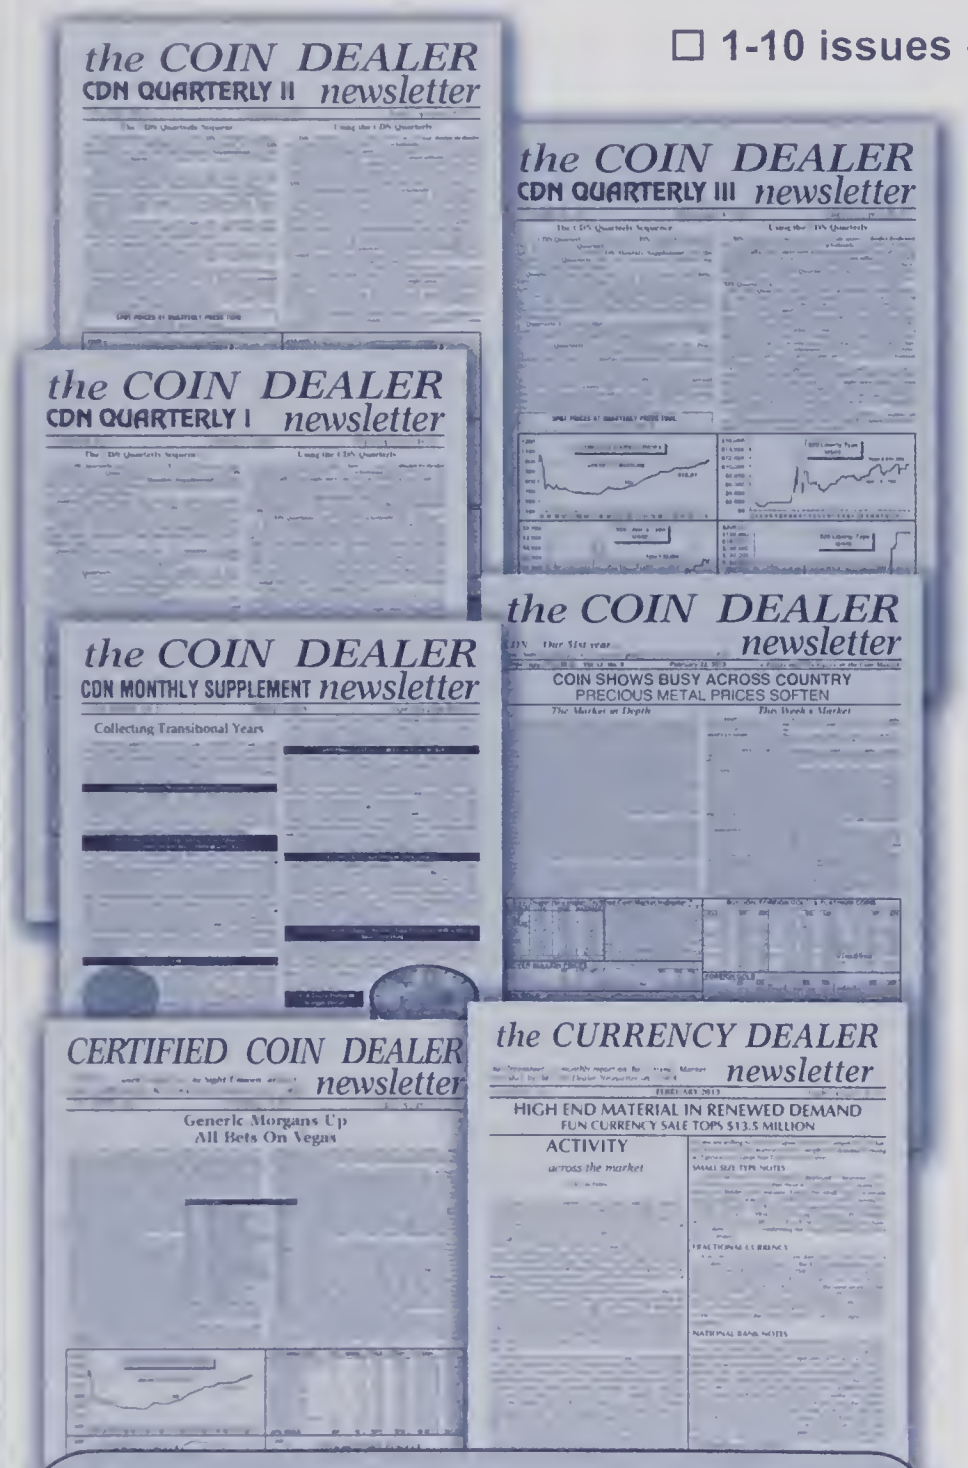
Every Numismatic Library needs a complete set of the

COIN DEALER newsletter family of publications

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:



☐ **1-10 issues - $3.00 each** ☐ **11-25 issues - $2.50 each**
☐ **26 & over - $2.00 each**

Or, you can purchase ***COMPLETE SETS*** of back issues for really dramatic savings:

Coin Dealer newsletter (*Greysheet*)
from June 14, 1963 to December 20, 2013, now includes 2,577 issues. At $2.00 each this would normally cost $5,154, but a complete set is only ..... **$3,375.**

CDN Monthly Supplement
(formerly the Monthly Summary) from August 1976 to December 2013, now includes 449 issues. At $2.00 each this would normally cost $898, but a complete set is only..... **$635.**

Complete set of the **CDN Quarterlies**
from January 1992, to December 2013, now includes 264 issues, a complete set is only..... **$360.**

Gold Commems Reach For The Sky
Baltimore Expo Hits Home Run

Dealers have returned from a successful Baltimore Expo, a show filled with enthusiasm and excitement. Making waves in Maryland were the newly released Baseball Hall of Fame issues. Many collectors waited in line at the US Mint booth, some for hours, to get their hands on these curved coins. Offerings included a clad Half Dollar, a Silver Dollar, and a $5 Gold piece in Unc and Proof strikes. 200 Gold examples were sold at the show, but the Mint has since sold out of their 50,000 piece mintage. Stack's Bowers, after their internet-only session, brought their Baltimore auction total up to $12.7 million. Taking top lot honors was an 1879 $4 Flowing Hair Stella graded PCGS PR65 Deep Cameo bringing in $258,500. We have included a list of highlights from this sale herein. Dealers have obviously been busier at the expo than in making deals on the electronic networks, which only resulted in roughly $120K in sight-unseen trades over the last week.

Unfortunately, during the show, a double row box of coins was stolen from Dick Osborn Rare Coins. A $5,000 reward is being offered for the recovery and arrest of the person or persons responsible. A few examples of the material stolen include an 1836 Reeded Edge Half Dollar graded XF45+, a Proof 63+ 1875 Twenty Cent Piece, and a 1795 Draped Bust Dollar, XF45 B-15. For a more detailed list, visit numismaticcrimes.org.

Prices realized at auction that are near or below Bid are forcing prices for un-supported Silver Commems to lower levels, and lower Asking prices are having a similar effect. This can be seen by the many minus signs in the Bid columns. Hudson Half Dollars graded MS67 by NGC are among the most serious decliners with Bid losing some $400, now residing at $2,600. Only 26 have been encapsulated by NGC at this grade level with none finer. Three NGC MS67 examples have sold at public auction in the past year, realizing $3,820, $3,290 and $2,820. Gold, on the other hand, is quite a different story. Virtually every one of the more common Commemorative issues has a higher sight-unseen Bid, regardless of service, and increases are in grades MS63 thru MS66. For example, 1903 Louisiana Purchase/McKinley Commems are up 20% in MS65 to $1,200 Bid and the bulk of the rest of the increases range from 5% to 10%. Regardless of price direction, Commemoratives are very active.

Morgan Dollars are mixed, with advancers and decliners in this report with 90% of the minus signs a direct result of the lower prices realized at recent auctions. Peace Dollars are even worse, with increases completely absent from this week's Bid columns. Bids for a number of GSA "CC" Dollars in their original government black plastic holders with and without NGC wraparound grade labels are decreasing. The recent run-up in sight-unseen Bids here has resulted in supplies of newly available cartwheels. Gold Type remains under-appreciated as a whole with widespread declines recorded in this issue. Among the largest losers are Type 1 Gold Dollars in NGC MS66, falling 20% or nearly $300 to a Bid of $1,110. An 1885 sold for under $1,000 in Baltimore—well below sight-unseen Bid. Proof Barbers in all three denominations are giving back a little of their recent gains in select grades. Mercury Dimes are still a pretty quiet segment of the marketplace. However, at least one dealer is hot for examples of the 1936 graded MS67FB by either service and has bumped Bid up by up to $25 to shake some lose. Falling Walker Bids are seen in Choice and better condition, outpacing the increases which have posted for a couple issues in MS61-MS62. Several Proof examples are also losing their luster, declining by as much as 12%.

A busy April is underway, and dealers will have little time to rest now that the Baltimore Expo has completed. April 4-6 is set for the Las Vegas Numismatic Society Coin Show at the Palace Station Hotel & Casino. The Chicago International Coin Fair will hold their 39th annual show April 10-13 with an auction by Heritage. Celebrating their 75th show, the Central States Numismatic Society Convention is set for April 23-26, also with an auction by Heritage. This show will feature a coin grading class conducted by NGC on Saturday, April 26. Topics will cover proper lighting, counterfeit detection, and determining eye appeal. The class is limited to only 20 students on a first-come basis, and advanced registration is required.

CERTIFIED COIN DEALER newsletter

*CCDN—a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXIX No. 15 | April 11, 2014 | Single copy price $5.00

Tax Time Arrives
Morgan Dollars Remain Active

It's that time of year again when we all have to prepare for Uncle Sam's take. For many dealers, this means holding onto some cash and slowing down on purchases. Sight-unseen trades clearly reflect such frugality as just under $100K changed hands through the electronic dealer-to-dealer exchange networks. This week's regular internet-only auction totals are coming up short as well when compared to the prior results. Heritage has gone down 26%, Stack's Bowers 40%, David Lawrence 22%, and Great Collections 19%. This phenomenon represents only a microcosm of the market, however. The big picture is much brighter indeed. In just the first quarter of the year, auction totals from the major players have already reached well over $185 million, indicating a very healthy rare coin market overall.

1890-CC, 1891-CC and 1891-O are needed at higher sight-unseen Bids in MS61 through MS64 for both grading services as these are getting harder to find in these grades. A frosted white 1879-CC cartwheel graded MS64 by PCGS did very well in a recent David Lawrence auction, picking up $10,000. Generic Morgan Dollars in NGC slabs graded MS67 are being sought after at a higher sight-unseen Bid of $560. A key date 1921 Peace Dollar graded MS65 by PCGS brought home $1,940 in a recent Stack's Bowers auction. In the same sale, a 1901-S slabbed MS65 by NGC took in $2,820. This is $620 more than what is being offered sight-unseen. Having a pop 331 and 6 finer, a beautifully struck 1937 Buffalo Nickel graded MS67 by PCGS switched hands for a hefty $317 through one of the on-line auctions held this week. A first year 1913 Type 1 Buffalo Nickel graded PCGS MS68, CAC and having a pop of 13 (CAC = 3) with none finer, will be up for grabs at Heritage's Platinum Night auction in Chicago at the end of April. Also for sale is a rare Type 2 1913-S in a PCGS MS67 slab having a pop of 4 and none finer.

A rather nicely toned 1880 Liberty Seated Half Dollar graded NGC PR67 sold in an internet-only auction this past Sunday and realized $6,015. Bid has been lowered by $85 to $6,000 presenting the new owner with a pretty healthy and absolutely liquid buyback figure. The consigner, on the other hand, likely received a check for only $5,000 to $5,400 leaving quite a bit on the table in the face of a blind buyer enthusiastically waiving $6K around for any Liberty Seated Half Dollar with Motto graded PR67. A baker's dozen have been graded at this level, none finer, with PCGS having slabbed three while NGC has entombed ten. Superb Early Washington Quarters had a tough go at auction recently, with results well under par. PCGS encapsulated examples took on the lion's share of the serious declines, with '39-S, 38-S and 38-P losing 32%, 28% and 20% since the last time we covered this area of the market. A group of Franklin Half Dollars, with and without the Full Bell Lines designation have taken it on the chin by way of discounted prices realized at public auction. 1949-D graded PCGS MS66FBL suffered the largest loss, with sight-unseen Bid slipping some 23% after being sold in Baltimore late last month for under $2,000. PCGS has 37 in this grade listed in their population report with three higher, all MS66FBL+.

Gold has made an impressive increase to $1,320 an ounce after spending most of last week below the psychologically important level of $1,300. Silver also suffered much of last week below $20, and has struggled this week as well, but is currently just over $20 per ounce, capping off a strong day in precious metals. Common and better $20 Saint-Gaudens remain a little soft overall. A Choice example of the 1914 in NGC plastic sold at auction for $1,763 in Maryland, well below the last two sales, that realized $2,585 and $4,113 earlier in the year. Bids for Silver Commems have stabilized this last week with only a handful of declines recorded, the most noteworthy being the 1936 Columbia South Carolina Sesqui-Type in NGC MS61 through MS66. As in recent weeks these minuses are a result of low auction prices realized. Later this month a Lafayette Dollar graded NGC MS67 having a combined pop of 12 of which NGC graded nine. The last time a Lafayette in this condition sold at auction was August of 2012, and it just so happens that this is the same coin going off at the end of this month. Also up for grabs is a 1926 Sesquicentennial of America Half in PCGS MS66, a PCGS pop 8 that last sold for $18,213 in January of 2013.

Sin City played host to the 51st Las Vegas Annual Coin Show, April 4-6. This show, held at the Palace Station Hotel & Casino, is the largest in Vegas, and dealers were especially pleased with this year's results, praising the number of public in attendance. The April show and auction action continues with the Central States Numismatic Society Convention in Schaumburg, IL April 23-26, holding their 75th show with a sale by Heritage, including a special Platinum Night, April 24, which includes particularly high-end material. As part of the convention, NGC will host a coin grading class on Saturday, April 26. Next up is the Santa Clara Coin and Collectibles Show April 25-27 with dealer set-up and early birds arriving April 24 at the Santa Clara Convention Center.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

CSNS Brings Anticipation, Excitement Generic CAC Morgans Up

Several dealers remain in the Chicago area after attending the April 10-13 CICF at the Crowne Plaza. Heritage pulled in over $15 million in their auction there. Now, the numismatic community is gearing up for one of the largest and most anticipated auctions of the year—the nearly 8,000 lot Heritage CSNS sale, featuring a Platinum Night. We have listed several highlights herein. The Central States Numismatic Society's 75th Convention will take place in Schaumburg, IL April 23-26, with Early Bird Day April 23 from 12 noon to 6 pm. Over ten separate collections comprise the CSNS sale, including the Charles G. Wright Family Collection of 19th century American Gold; Christopher Bently's Nob Hill Collection, Part II, which focuses on important early and rare Half Eagles; and the Collection of Donald E. Bently, sold for the benefit of the Bently Foundation. Then there's the Platinum Night auction, April 24, which features nearly 500 lots from the collections above that are especially high in quality. Also on the 24th at the CSNS, Mark Ferguson will discuss his new book, *The Dollar of 1804—The U.S. Mint's Hidden Secret*, which includes newly discovered facts regarding the 1804 Dollar and discusses the 1804 Dexter Dollar as well, which, in 1989, was the first coin to sell at auction for the million dollar level. Given all the excitement surrounding the CSNS, sight-unseen trades on the dealer-to-dealer electronic exchanges are mediocre, with over $185K in sales taking place.

At least one dealer has raised the ante 5% for 1888-S Morgan Dollars graded MS67 by PCGS to a sight-unseen Bid of $34,800 to anyone who may hold one of the three graded by PCGS. Higher sight-unseen Bids are targeting generic Morgan Dollars with CAC endorsement in MS65 at $172 and in MS66 at $315. Carson City Morgans are selectively increasing in MS64+ and MS65+ in addition to CAC stickered examples in like grades. San Francisco minted Peace Dollars are a little weak in MS63-MS64 with most declines in the $10 range due to recent lackluster auction appearances. CAC stickered examples of the 1934-D are up to 10% higher in grades MS64-MS66. Over the past four plus years, CAC has awarded the green bean to 92 in MS64, 37 in Gem and a dozen in MS66. PCGS slabs containing 1934-S cartwheels are also higher in grades MS64+ and MS65+ and have respective populations of 32 and 11 A pop 26 and none finer, 1934-S graded MS66 by PCGS is the only Peace Dollar up for grabs at the Platinum Night sale, making this a must have coin

Silver Commems are mostly stable in this report with only a couple of declining issues at both ends of the grading scale. Bids for Rhode Island Type in MS66 have decreased by 6% while Cincinnati Music Center Type is off a bit in NGC MS61-MS62. Gold Commemoratives are higher in + grade slabs in addition to those sporting the CAC seal of approval. Dollar denominated Gold are leading with Bid jumps by as much as 11%. Gold Type continues to firm up, despite today's drop below the $1,300 per ounce plateau. However, common date Double Eagles are the only issues traveling North in grades through MS65 for $20 Saints and up to MS63 for $20 Libertys. It's to the point where monitoring Bid levels for Type is like watching grass grow, but in a good way. The current market displays remarkable firmness and stability. An errant cheap price at auction, a dealer trying to gin up some cash by selling inventory cheap does not chip into Bid prices because there is so much support. Any movement we might see is likely to be upward. The same holds true for Proof Type. However, there is a decline for Standing Liberty Quarters in MS63FH. NGC is now Bid at $270, a 5% decline and PCGS is $285, down $10. Before these changes, Bid had been holding pretty steady since August 2013 at $280 and making periodic advances up to $295 which it was as of last week's printing.

For the last four weeks, Gold has been struggling to remain at the $1,300 per ounce level, oscillating just above and below this benchmark like a rollercoaster. The yellow metal has managed to stay at or above this watermark in the last two weeks, but fell short today, closing at $1,293 per ounce. Silver has also had its struggles to stay above $20, especially in the last month. This week, the white metal has not been able to rise above, coming in today at $19.59. Palladium has been strengthening recently, reaching levels in the $800 range not seen in nearly three years. Today's close came in at just over $807 per ounce.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices) The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Gains For Gold Commems
PCGS & NGC Slab Over 58 Million Coins

The Central States Numismatic Society show is in full swing in Schaumburg, IL with the host auction by Heritage underway as well. The sale has brought in over $5.2 million so far and counting. Excitement has been building for weeks over this show and sale considering its size and the fact that it's been a while since a large convention and auction have taken place. There is a handful of west coast dealers who have chosen to head to northern California instead for the Santa Clara show scheduled for April 25-27. Dealer-to-dealer trading on the electronic exchange networks is not surprisingly a bit slow, with about $140K in product changing hands sight-unseen this week. Precious metals have seen a small uptick today, with Gold reaching $1,291, Silver closing at $19.68, Platinum coming in with a Spot of $1,410, and Palladium at $802. The *CCDn CMI* is up this time from last year with Mercs leading the way, up by 58 points. Morgan Dollars are in second place having jumped 30 points, and Peace Dollars are next, rising 21 points. Gold Commems are higher as well, coming in fourth with a 16 point increase.

A Bidding war took place at last week's Stack's Bowers auction for a beautiful 1885 Morgan graded PR67 Cameo by NGC with a pop of 7 with 4 finer. The winner forked out $15,275 to get this rarity. This information can be seen in this week's Market columns as well as prices realized from many more recent and past auctions. Great Collections is looking to auction off a cartwheel rarity 1893-S Morgan graded AU55 by PCGS, CAC through their on-line auction ending Sunday night, April 27. This issue has a pop of 7 with a CAC sticker and 4 finer, and will likely have some serious Bidders competing to take it home. 1894-O is seeing a Bid increase of $25 in grades MS61 and MS62 to $1,025 and $1,425 respectively. Key date 1928 Peace Dollars are being sought-after in MS62, MS63 and MS64 at higher sight-unseen Bids of $525, $750 and $1,000 as demand for these is starting to pick up. David Lawrence's on-line auction saw a pop 49 with none finer, 1947 Walker graded MS67 by PCGS change hands for $2,100. A key date in Gem with original luster, 1925-D Buffalo graded MS65 by PCGS having a pop 96 with 9 finer brought in $4,050 through a recent David Lawrence on-line auction. From the same auction, a pop 110 with 1 finer 1937-S Buffalo graded MS67 by PCGS and CAC approved, brought home a whopping $1,075. Three 1937-D 3-Legged Buffalo Nickels graded MS65, MS65/CAC and MS65+/CAC all by PCGS will likely be going to a new home after this week's Platinum Night sale in Chicago.

Thirty-seven Bids advanced this week in a very active Gold Commem market. This underlying demand has been percolating beneath the surface for a while with the last round of increases reported in the April 4 issue when forty-six Bids advanced. Some of this week's Bid jumps are noteworthy including MS64 1922 Grant w/Star Gold Dollars increasing 14% to $1,650. MS63 1904 Lewis and Clark Gold Dollars are up 13% or $150 as well as 1905 L&C $1 which are up 11% in MS63 to $1,550 Bid. It is evident that some folks feel that this segment of the Classic Commem market has become under-valued and has some meaningful upside price potential. See the chart herein highlighting some new sight-unseen Bids that are much higher than recent retail auction prices realized as seen in this week's Market columns.

Classic Gold Commems	Service Grade	Auction Price Realized	Sight Unseen Bid
1904 L&C $1	PCGS MS63	$1,155	$1,350
1905 L&C $1	PCGS MS64	$2,000	$2,100
1922 Grant $1 Star	NGC MS65	$1,850	$2,100
1922 Grant $1	PCGS MS64	$1,530	$1,550

What has been a very solid but silent market for Type the last couple months has roared to life with seventy plus Bids garnering the attention of market participants. Most notable are the increases for Capped Bust Reeded Edge Halves in grades MS61 thru MS63. Increases are sizeable. MS61s are up 25%, 62s are up 19% and MS63s are up 14%. That works out to a respective sight-unseen Bid increase of +$230, +$200 and +$250. These are scarce issues in this grade range with combined populations for both PCGS and NGC of 916 coins and a CAC census of 44. This is for all Reeded Edge dates of 1836, '37, '38, '39 and '39-O not just the most common year. Remaining Bid increases in the overall Type category are in the +2% to +6% range.

NGC graded its 30 millionth coin this week, and is the first third-party grading service to reach this lofty number. The last four years have seen significant growth for NGC, during which time the company graded over 10 million coins. While demand has been strong for domestic material, world coins currently make up the fastest growing segment of NGC certification, with nearly 800,000 coins from China, over 350K from South Africa, approximately 300K from Australia, over 200K from Canada, and close to 150K from Britain. After recent expansion, NGC now has locations in Hong Kong, Germany, Switzerland, China, South Korea, Singapore and Taiwan. Meanwhile, PCGS recently announced their 50 millionth product certified consisting of coins, cards and autographs combined, with over 28 million representing encapsulated coins.

May will be a busy month with local and regional shows, beginning with the Richmond, VA 10th Annual Spring Coin & Currency Show, May 2-4. The Pennsylvania Association of Numismatists Spring Coin Show is next up May 8-10 at the Monroeville Convention Center. Then it's the larger Denver Coin Expo, May 9-11 at the National Western Complex, with an auction May 9 at 5 PM.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; **lm** – Lowest asking price appearing *l*ast *m*onth "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these eases, a more aeeurate refleetion of a eoin's true value may be found in the CDN, albeit, on a sight basis.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of $100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

** Price guaranteed for three years. Cancel at any time without penalty.*
